## Relevant Projects

**Snapchat GeoFilter Design**

Binghamton, NY, **January 2015**

*Independent Project*

- Designed GeoFilter's for Binghamton University's living communities using Photoshop CS5 that can be used by over 2,500 students in those communities
- United students and displayed community pride by creating community based filters that allowed students to share pictures with special graphics depending on where they are on campus

**Tic-Tac-Toe Game**

Binghamton, NY, **December 2014**

*Computer Programming and Applications Project*

- Collaborated with a teammate to create and design a Tic-Tac-Toe game using Python
- Developed a visually pleasing graphical user interface by creating an Object-Oriented class and having separate user interface code and application logic code using tkinter.
- Successfully completed the project and presented it and an ATP in front of 30 people

---

## Work Experience

**Binghamton University Information Technology Services**

Binghamton, NY, **August 2015 – Present**

*Newing College Residential Computer Consultant*

- Troubleshoot computer issues for over 1,500 students living in residence halls on campus
- Staff the Information Technology Services Desk in Bartle Library and aided students with any computer issues that may arise
- Research and collaborate with coworkers to solve new issues that hadn't been encountered before

**Travesties Entertainment**

Irvington, NY, **May 2015 – Present**

*Personal Assistant*

- Effectively corresponded between the client, the event spaces, and the event planner to schedule client meetings and arrange tours
- Collected data from various spaces and presented it to the event planner in a clear Excel spreadsheet to make it easier for her to provide price quotes to her clients

**Tactica42**

Barcelona, Spain, **August 2013**

*Graphic Design Intern*

- Curated stock photos for an exhibition, organized files, and created a new organization system to store and keep track of past projects
- Adapted to a new international business environment by interacting with clients, meeting with executives and sitting in on design consultations
- Used Excel to manage incomes and expenses

---
